

Spending	Item/project	Objectives	Impact
PE £6083	Rain Suits	<ul style="list-style-type: none"> To engage children in at least 30 minutes' physical activity per day Set of suits for each year group/replacement of broken suits 	<p>Each year group now has a set of specifically coloured suits. This has led to more efficient use of time getting ready for outdoor/woodland learning because other year groups are not borrowing. Learning time for physical activity is maximised.</p> 
	Large Physical Resources	<ul style="list-style-type: none"> To engage children in at least 30 minutes' physical activity per day 	<p>Children came back from lockdown 3 with noticeably lower fitness levels and many had put on weight. The purchase of sets of scooters, den building kit, loose parts obstacle course and a gigantic exploration set have encouraged the children outside and engaging in physical play, leading to better levels of fitness generally.</p> 

£515	Lunchtime resources	<ul style="list-style-type: none">To engage children in at least 30 minutes' physical activity per day	<p>The children play tennis, football, skip and Frisbee. Balance skills are developing using stilts and balance boards.</p> 
£1970	Outdoor education	<ul style="list-style-type: none">To broaden the range of sports and activities offered to children	<p>New hammocks have given children further opportunities to work together and develop their risk taking skills. New benches have given extra spaces to work. Set of compasses are used to develop directional language in year 2.</p> 

£560	Tu Dance	<ul style="list-style-type: none">• To broaden the range of sports and activities offered to children• To develop teacher's knowledge, understanding and skills in the teaching PE	<p>This was originally booked as an after school club for Year 2 in the spring term. After lockdown there was no afterschool availability so the coach came in and delivered the session during the school day to the 27 children who had signed up for dance club. This included 8 boys. The children loved the sessions and the teacher was outstanding.</p> <p>Reception all had a weekly dance lesson from the same coach in summer 1. This included some 'baby ballet' which most of our children would never experience.</p>
£270	Archery Club	<ul style="list-style-type: none">• To broaden the range of sports and activities offered to children	<p>26 Year 2 children attended weekly archery club run by 'Just do Sport' over the summer term. They developed new skills for the sport as well as resilience and turn taking which was particularly beneficial to several of the children who struggle with this generally.</p> 

This was originally booked because we had a large underspend and guidance at the time was that any money not spent would be lost. Wise Up are a mobile outdoor activity centre who come into schools. One of the biggest impacts of lockdown and covid restrictions has been children missing out on experiences and events so we felt that this would be hugely beneficial to their physical and mental health.

Each year group had 3 days of activities including assault course, archery, bush craft and problem solving. The children loved it and amazed us with their bravery, leadership and team work skills. It is something we will definitely do again in some form. Attached is feedback from staff and children.

- To broaden the range of sports and activities offered to children
- To develop teacher's knowledge, understanding and skills in the teaching PE

£10740

Wise Up Activity Days

Wise Up Feedback

"I just want to say what an absolutely AMAZING 3 days we have had with the Wise Up team. The children in my group "Allan's Angels" proved to be, on the whole, just that!! They were engaged and entertained throughout. LD was super excited to spot math related clues to solve and took the lead helping the rest of the team with the answers in Mission Possible. HR was really focussed helping MW and DV create a giraffe for the "zoo" in the Bushcraft challenge, using a rock for a head small sticks for ears and long sticks for the neck. He said "We need a tongue, giraffe tongues are black" off he went and came back with a small dark stick which he positioned correctly. Even Thrin could tell exactly what the creature was! Archery proved to be a huge hit with everyone but especially the boys LC's face was an absolutely picture - such a beaming smile when he managed to shoot the arrow and TH loved this too. I was amazed at how they did. I had a go myself and it wasn't easy!! I think the highlight of the 3 days though was seeing how prepared the children were to have a go at the obstacle course. Everyone had a go at climbing up and over the high net confident that the Wise Up staff wouldn't let them fall. LRC was wholly supported by Max and Kieran they guided her up and over. When she came down she said to me "I was scared. I want to do it again!!" I think that says it all. Everyone children and adults had such a good time, helped by fab organisation and the weather! ✨ It is definitely worth doing again and one of the highlights of my time at Brewster Avenue!!" (Anna Reception TA)

"The children enjoyed 3 amazing days of fun-filled activities, that were carefully planned and pitched at the right level for our pupils. Staff were delightful and worked extremely well with the children. These team bonding activities provided an opportunity for the pupils to learn more about themselves and their peers. They learned new skills such as water filtering, shelter building as well as having a chance to try a variety of physical activities that otherwise might not be available to them. Furthermore this particular year more than ever was wonderful and extremely beneficial for the children to take part in this type of activities. By providing the children with a wide range of physical, problem solving and creative activities helped to broaden their experiences, develop their self-confidence, equip them with life skills and enable them discover their inner strengths and abilities. In my opinion this has been money well spent and a valuable experience for the children." (Sanja Y2 TA)

"In the woodlands last week, the children were inspired to make their own bows and arrows following the archery skills they learnt. This week they would like to make a target. They recalled the rhymes for the skills, such as 'over the mountain' to place the arrow on the bow accurately. We are also going to pretend that we are filming a Ray Mears style programme and make a Survival video. Footage to follow!

The elder, Maria had the idea of building on the skills the children had learnt and hollowing out and making whistles and Sonia wants to make the charcoal pencils she has made before. They loved the bracelets too, which was a lovely introduction to teaching how to hollow the elder.

The children loved the assault course! They would like to do that again so we will have to think creatively about how we can make our own. Plenty of inspiration to take us through to Year 2! A big thank you to you again for giving the children these wonderful experiences and opportunities to learn new skills. Some will never have such an 'amazing, amazing, amazing' time! Stann's words. 😊🧠" (Lital Year 1 teacher)

Did you do anything you had never done before? "Bushcraft because I have never made a pencil before, ever!" How did you feel over the 3 days? "Excited and a bit sick because I didn't like the cheese sandwich!" (EW-C Year 2)

What were your favourite activities? "I liked the assault course because it was challenging but it was fun." Did you do anything new? "Yes, I had never tried archery before." (ZS-Year 2)
